Traveling Electric Light Parade Safety Measures

Name of the Event: Traveling Electric Light Parade

Date: Saturday, December 5, 2020

Time 6:00pm

Length of Event: estimated 1 hour

Town/County: Payson, Arizona / Gila County

Approval: Event has been approved by jurisdiction

Location: The event is a traveling route, which will encompass a 4.5 mile route – map displayed as Exhibit A.

Guests: Event is open to the public to view at any location along the 4.5 mile route, from the comfort of their personal property, and/or virtually.

Mitigation Strategy:

- Extend route from a singular .75 mile closed road way, to a traveling route which will encompass 4.5 miles;
 - Route extension will allow the ability for interested individuals to physically distant themselves, and the option to view within vehicles;
- Limiting participation of parade entries by 50%+ to accommodate distancing for participants;
- Support from local fire and police departments to execute;
- Option for the public to view the parade virtually, to decrease in-person attendance;
- All participating entries will be within the cab of a road legal vehicle;
 - No group/walking participants;
 - No large groups riding on trailers;
- All staging of participating entries will be in separate parking lots and be marked out for appropriate distancing;
- All participants have been briefed with rules and regulations for the parade in a pre-parade meeting;
 - Face coverings will be required by all entries within the parade.
